MISSION

At Oxford, Our mission is clear - to deliver the alternative investment industry's highest quality returns to our investors while maintaining commitment to our principles of integrity, discipline and excellence.

Integrity

We operate with clarity of purpose, striving to maintain alignment with our investors and working with the expectation that our people will conduct themselves with professionalism and respect for our values.

Discipline

Managing risk is at the core of what we do. We take a measured and thoughtful approach in both our investment and operational activities, pursuing new opportunities rigorously, pragmatically, and with an eye towards maintaining a standard of excellence.

Excellence

We believe in constantly improving how we operate, striving to develop leading talent, resources, and processes.

We deliver beyond expectations and seek to partner with people who strive for similar excellence.

INVESTMENT APPROACH

While Oxford is constantly evolving, our core philosophy has remained unchanged. Our process is driven by independent portfolio management teams. Our teams identify and pursue opportunities according to their specialties and within a risk framework tailored to their strategies. With this approach, we seek to provide a level of consistency that is difficult to replicate.

OUR FOUR PRIMARY STRATEGIES ARE:

1. RV FUNDAMENTAL EQUITY

Our teams perform fundamental research on companies both as generalists and as specialists within a particular sector or sub-sector.

2. EQUITY ARBITRAGE

Our teams pursue a variety of systematic and fundamental arbitrage strategies across different parts of a firm's capital structure and a variety of derivatives, such as merger arbitrage, event-driven strategies, convertible arbitrage, option-volatility trading, and others.

3. FIXED INCOME STRATEGIES

Our teams manage a number of different strategies including rates, macro, credit, mortgages and asset-backed securities and commodities.

4. QUANTITATIVE STRATEGIES

Our teams build and enhance investment processes that are primarily quantitatively driven and focused on a variety of asset classes, including global equities, interest rates, foreign exchange instruments, and commodity-linked derivative instruments.
